EASTERN NEWS.

Interview with Cardinal Manning. NEW YORK, August 13.—The Herald prints an interesting interview with Cardinal Manning. His general view of Ireland is hopeful. He professes an affection for the country, believes that the relations of landlords and tenants have improved and that agrarian agitation has been laid at rest. He looks for reforms which shall benefit laborers as the farmers have been benefitted, and also for a time when the Irish artisan shall live in his own cottage, till his own garden and find at home the advantages for which he provided the significant of the state o vantages for which he now looks wistfully to foreign lands. The Cardinal traces the social upheaval to the influence of continental secret societies. He thinks that Ireland could not thrive if separated from England. He denounces assisted emigration as a means of clearsisted emigration as a means of clear-ance, while approving of the return of the paupers who were sent to our

Panie in the New York Stock Ex-New York, Aug. 13.—There was intense excitement at the Stock Exchange at the opening at 11 o'clock this morning. Heavy blocks of stocks were thrown upon the market and prices de-clined from a half to three-quarters as compared with Saturday's closing figures. The greatest break was in Northern Pacific, Oregon Transporta-tion, Erie, Western Union, Union Pacific

Hotel Burned at Atlanta. ATLANTA, Ga., Aug. 13.—The Kimball House was burned down by a fire which originated in the rear. The building was favorable to escape, and within twenty minutes the hotel was emptied of its guests. Within an hour the stre ture was burned to the ground. The hotel was built by H. L. Kimball and owned by Robert Toombs, John Rice, Joseph P. Thompson and others. The loss by the fire is \$600,000 on the building and \$125,000 on the furniture. In whole the amount of insurance is onl \$80,000, and the reason why the owners carried so little insurance was because of the high rate of charge. The Kimbal ouse was considered the worst risk in

The Fire at Vineyard Haven. COTTAGE CITY, Mass., Aug. 13 .-Thousands of people visited the scene of the fire at Vineyard Haven on Sunday. News from the Presidential Party CAMP VEST (on Spring Creek, Wyom ing, via Washakie, Wy.,) Aug. 10-The day so far, since leaving Camp Rollins, at Bell Lake Fork, this morning at 7 o'clock, has been very uneventful. THE PACIFIC COAST.

Interview with Father Prendergast SAN FRANCISCO, Aug. 13 .- Under th heading, "A Clerical Intrigue," the Chronicle this morning publishes interview with Father Prendergast Vicar General, representing Archbishop Press telegram sent from this city, that priests generally favored the appointment of Father Riordan, of Chicago, as coadjutor to Archbishop Allemany, but that two of the oldest Bishops on the oast were opposed to it. Father Prendergast says; "The dispatch hints strongly that this Papal appointee wil be or has been opposed by Archbishop Allemany. Of course, I cannot say what the Archbishop's course has been, but I imagine he may have doubted whether success in a homogeneous diocese like that of Chicago would necessarily insure success in such a neterogeneous, polyglot, peculiar diocese as this." The Vicar General then proeeds to say that the information given nd published is all the more mischie "that there is a point here and there of disaffection concerning the Archbishop's personal administration, but could one ersonal authinstitution, but expect anything else in a jurisdiction hat has extended over so many years I think." concluded Father Prendergast, I could lay my finger on the dangerous meddler who furnished the information ontained in that dispatch."

PORTLAND, Ogn., Aug. 13.—News has reached here of serious Indian troubles near Missoula, Montana, originated by Indians robbing a white man of \$250 and his horse. The man, aided by some attacked the Indians, killing one of them. Major Jordan, commanding at Fort Missoula, with 100 troops, has gone to the scene of the trouble.

THE TALES OF, A TRAVELER.

Before the discovery steam as a motive power or electricity as a means of communication, such a tissue of lies from beginning to end would scarcely have been pardonable. The romances of Marco Polo alongside of this remarkable production read almost like the naked truth, and if the tale of this unscrupulous falsifier related to some almost unexplored portion of Asia, the misstatements made would be a disgrace to a paper of the supposed high standing of the Tribune. There is hardly a statement in that portion relating to Southern California which even a man prejudiced against our section, but who has a superficial State is doomed." knowledge of our resources, would not at once denounce as a most berefaced lie. The ignorance of the man Tyrrell, if such an individual exists, must be fully equal to his malice, and it seems scarcely possible that any intelligent person in the East can be deceived by his malicious lies. Who will tell us how many mechanics might be given steady employment in manufacturing the agricultural implements that are sold here annually? No! John is not the worst man in the country. Not half so bad as he who presists in buying Eastern-made goods to the exclusion of our own.

Now arout the tax.

No sane man will deny the fact that the future prosperity of our country greatly depends upon the amount of manufacturing done here. This proposition certainly needs no proof. Then, is it not suicidal in the extreme to part any tax on this home industry? This tax seems to us "Penny wise and pound foolish." There ought to be a large premium offered to the largest manufacturer in the country, instead of this tax, and impose a heavy tax on sales of imported goods. Any man who would suggest the taxing of manufacturing enterprise in our county we should say was either a fool or an enemy to the country.
